<u>Employee-Vendor</u>: In November 2009, we identified 7 potential employee-vendor matches at 6/30/09 and 9/30/09 that are referred to Human Resources for further evaluation. Their review is in process.

BACKGROUND INFORMATION (SEE COMPLETE REPORT FOR DETAIL)

CAATS (Computer Assisted Audit Techniques) are automated queries using a proprietary industry recognized software product applied to large amounts of electronic data searching for specified characteristics. Resulting exceptions or findings are forwarded to the appropriate department for validation and/or resolution. Our objectives are to analyze the selected vendor payment and payroll data to identify inappropriate payment activity.
